Xycarb Ceramics announces the establishment of a branch in Korea.

In its continuous effort of optimizing its global capacity and reach, Xycarb Ceramics is proud to announce the establishment of a branch in Korea as a next step to service future growth.

Because of the market developments in the Korean thin-film industry Xycarb Ceramics creates the unique opportunity for her Korean customer base to have a local Graphite, Quartz and Ceramics partner actively supporting their business. Xycarb Ceramics' Korean branch provides customer services, such as application support, consignment stock and a customer service desk with local sales and marketing representation.

The establishment of the Koran branch is Xycarb Ceramics' commitment to customer's requirements and confidence about future Asian market expansion. It is our commitment to continue to supply our customers with high quality products and customer service. The address of the Koran branch is:

Xycarb Ceramics Korea
908, Parkview Office Tower, #6
Jeongja-dong, Bundang-gu, Seongnam-si
Gyeonggi-do, Korea 463-863
Tel: +82 31 717 7260
Fax: +82 31 715 7263

About Xycarb Ceramics B.V.:

Xycarb Ceramics is a leading company providing a complete range of Graphite, Quartz and Ceramic consumable parts and complementary products for the wafer processing industry. Xycarb solutions are used by a worldwide range of customers to produce advanced devices for electronic, opto-electronic and solar applications. Xycarb has its headquarters in Helmond, The Netherlands and is a division of the Schunk Group. Xycarb products and services are supported by a Global Sales and distribution network providing cost effective logistics. Our operations and subsidiaries are in Helmond (NL), Hapert (NL), Georgetown (TX, USA), Hsin Chu (TWN) and Singapore plus Sales offices in Japan, Korea and Germany.
